Ms. Mescher:

This morning you wrote to me directly:

"Curt, this is a reminder that you and your father are to contact me, not the agencies, with regard to any issues regarding Arkwood." (Jean A. Mescher, McKesson Corporation, October 29, 2014, 06:43 PDT)

Whose order is this, yours? Michael Huaco's? Carole Ungvarsky's? John Edgcomb's?

I wouldn't contact you about **anything** because you have proven to me that you are deceitful and dishonest.

Your "reminder" to me seeking **again** to cut EPA management out of the communication on Arkwood Superfund site is further proof of your penchant for deceit and secrecy.

Your intentions and actions are bad for Arkwood, bad for the local community, bad for public policy and — I would argue — bad for McKesson Corporation shareholders.

You have made your (McKesson Corporation's) intentions clear by such writings to me as, **"...McKesson's incentive is to ensure that this property is 'mothballed' indefinitely..."** (Jean A. Mescher, McKesson Corporation, December 7, 2005)

Arkwood certainly wouldn't be where it is today (moving toward productive reuse) if I had contacted **you only** in the matter; it still would be where you and your tool Shawn Ghose of EPA had it: **permanent limbo**.

I don't believe John Meyer, Carlos Sanchez, Stephen Tzhone, or Gloria Moran of the United States Environmental Protection Agency will appreciate or agree with this, your further attempt 1) to circumvent EPA's authority, involvement and prerogative in the matter; 2) to infringe my free speech rights as a member of the public, and 3) to prevent my defending myself and my family against McKesson Corporation's threats, aggressions and adverse actions, which have been visited upon us repeatedly for as long as I can remember by **you** as McKesson Corporations's employee, agent and representative.

I wish never to hear from you again; if I do, don't call me "Curt." That name is reserved for my friends and family. I'm Mr. Grisham to you, if anything at all.

If you ever want to communicate with me again, do so through your attorneys, as you have done many times in the past.

Charles Curtis Grisham, Junior
